EXPERIENCE

TIAA INDIA | ANALYST, SOFTWARE DEVELOPER

July 2021 – Current | Pune, India

- Part of the Android development team supporting the native TIAA app, managing the client side architecture alongside maintaining integration with backend services, designing reusable components for UI development.
- Currently Working on a new Reusable Transactional design, to utilise several features over a generic implementation using SharedFlow API, Navigation component etc.
- Worked on IRA Account Opening feature stories with a defect free release, implementing MVVM Architecture and eliminated 75% of defects in the existing user stories, collaborating with API and QA teams at every sprint.
