PROFILE

Software Engineer with 4+ years of expertise in creating and executing software solutions to enhance business productivity. Rich experience in all aspects of the software development life cycle, from conception and ideation through to development and delivery. Consistently recognized as a hands-on and competitive leader, skilled at coordinating cross-functional teams in a fast-paced, deadline-driven environment to steer timely project completion.

AREAS OF EXPERTISE

- Scrum and Agile Methodologies
- Software Development Life Cycle
- Web Applications and API Design and Development
- Cloud Migration
- Technical Process Improvement
- Team Leadership

WORK EXPERIENCE

EPAM Systems India Pvt. Ltd

Software Engineer | Hyderabad, India | July 2018 – Dec 2022

- Migrated customers applications from On-premise to AWS Cloud Platform within the customer's environment and organized KT sessions to clients on AWS Services.
- Redesigned an application feature using file server with AWS Cloud Service S3 which results in reducing costs by 50%.
- Developed new and migrated existing APIs with API Gateway and Lambdas to achieve serverless architecture and thus results in reducing costs by 75%.
- Supervised and lead a team of 5 junior software engineers during the development of a robust API within 8 months.
- Documented all supported systems and applications to effectively train the new and existing team members.
- Works closely with technical and business teams to drive discussions, ensuring business functionality and SLAs are met.
- Conduct technical sessions for internal teams, partners and customers.
- Enhanced the application's features to effectively fix the bugs and optimize the overall performance, reliability and efficiency.
- Refactoring the application based on recommendations to fix security issues reported by Veracode Security Scan reports.
- Automated build and deployment process for both infrastructure and application through Jenkins and CF Scripts.
- Collaborated with client team for integrating the web application with Azure AD.
