Oct 2021 - Oct 2021

<https://github.com/rajkhare05/hacktoberfest21-api-starter>

Postman's Student API-First Hacktoberfest. Stack includes postgresql and express js

ToDo App

Oct 2021 - Oct 2021

<https://github.com/rajkhare05/todo-app>

A todo app made with MERN Stack. Material-UI is used for prettifying the UI.

Url Shortener

Sep 2021 - Sep 2021

<https://github.com/rajkhare05/urlshortener>

Url shortener made using PERN Stack (PostgreSQL, Express, React, NodeJS) with bootstrap to prettify UI.

<https://urlshortener-self.vercel.app/>

Dark Memer (Discord Bot)

Nov 2020 - Present

<https://github.com/rajkhare05/darkmemer>

DarkMemer is a bot written in python for playing games, listening music, requesting memes and more fun stuff in discord servers.

Whatsapp Automation

Jun 2021 - Present

<https://github.com/rajkhare05/whatsappAutomation>

Whatsapp automation using selenium.

MyMentor

Jun 2022 - Present

MyMentor is a platform for solving student doubts. MyMentor connects students and mentors not only online but in offline mode within the nearest locality. It has a real time feature that finds a mentor just like you want to find your uber/ola ride.

Video Chat App

Jul 2022 - Present

<https://github.com/rajkhare05/video-chat-app>

A video calling web app.
