---

## TECHNICAL SKILLS

### **Data Structures and Algorithms**

**Languages:** Python, Java, SQL, JavaScript, PHP

**Libraries/Frameworks:** Django, NodeJS, Express, Numpy, Pandas, Pytest, Junit, jQuery, React

**Database:** MySQL, MongoDB, Redis Cache, Rabbitmq

**Specialities:** Object-Oriented Programming (OOP), Data Structures, Algorithms, Database Management System, Software Design, Information Retrieval (Python)

---

## EDUCATION

### **Bachelor of Engineering in Computer Science**

April 2018

*S. B. Jain Institute Of Technology, Management And Research*

*Nagpur, India*

---

## WORK EXPERIENCE

### **Bridgelabz | Backend Developer**

*July 2022 - Present*

- Abundant practice for good coding skills, unit tests (TDD & BDD), data structures and Algorithm, problem solving

### **Nyusoft Solutions | Software Programmer**

*April 2021 - August 2022*

- Responsible for designing system architecture and code review

### **Technorove Internet | Backend Developer**

*September 2020 - April 2021*

- Full Time backend developer for 6 months contract

### **Dolphin Techno | Backend Developer**

*April 2018 - March 2020*

- Full Time developer
- 

## PROJECTS

### **Project Management System | Django**

*April 2021 - August 2022*

Managed projects regarding data and performed analysis

- Designed, developed and managed database
- Used numpy and pandas library in django for import and export data between database and files(i.e. CSV and Excel)
- Generated project work report according to projects task, overtime, and all data
- Worked with youtube videos apis show youtube videos in app and no need to go to youtube website, and no one can change video url by browser inspect

### **Salary Slip Generation System | Django**

*December 2021 - February 2022*

- Designed, developed and managed Database, designed system architecture
- Importe employees salary data through excel files using python library pandas in django
- Generated salary slips in pdf format using python library pdfkit in django

### **Baba OCA Machine | Django**

*September 2020 - April 2021*

ecommerce website for hardware and spare parts

- Designed system architecture, build website and REST APIs in django

### **Sangita Coal Transportation | Laravel**

Software for authenticate trucks and manage data

- Designed and developed Back-End for software
