PROJECTS

Hotel Booking App   </>   **LIVE**

Tech Stack: React.js, CSS, Node.js, Express.js, MongoDB, mongoose

- A hotel booking app where users can **search** for destinations and book a hotel room based on availability and pay via the **Razorpay payment gateway.**
- The app provides a **secure authentication system** using **JSON Web Token**, log-in, and sign-up support and has an **admin dashboard** where the admin can **create, read, update, and delete** hotels, rooms, and users.
- The admin dashboard is developed using react.js, **material UI** library and designed using **sass** and supports both **light and dark modes.**

GitHub Repo Search App   </>   **LIVE**

Tech Stack: React Js, TailWind CSS, FireBase

- This app lets users search for the GitHub profile based on their user ID and displays the repo details.
- Made fully **responsive** on all devices using **TailWind CSS**.
- The app contains a **secure authentication system**, and log-in and sign-up support provided by **Firebase**.

GPT AI Landing Page   </>   **LIVE**

Tech Stack: React Js, CSS

- Developed a **responsive** landing page for GPT AI using react with proper folder structure.

Restaurant Landing Page   </>   **LIVE**

Tech Stack: React Js, CSS

- Developed a **responsive** landing page for a restaurant using react with proper folder structure.

Other Projects

Tech Stack: HTML, TailWind CSS

- Developed a fully **responsive Paytm, Shopify, and Rode clone** using Tailwind CSS.
- Developed **6 static and 9 fully responsive landing pages** as per the given designs. live links can be found in each respective repository.
