EDUCATION

- **Indraprastha Institute of Information Technology** — Delhi, India
  Bachelor of Technology - Computer Science with Applied Mathematics; GPA: 8.73 — *July 2019 - Present*

SKILLS SUMMARY

- **Languages** Java, JavaScript, Python, C
- **Skills** Front end Development,Object-Oriented Programming, Multithread Programming, Relational Databases
- **Frameworks** React, Redux, NodeJS, FastApi
- **Platforms** Linux, Web, Windows, Arduino, Raspberry
- **Technical Electives** Data Structures and Algorithms, Advanced Programming, Computer Organisation,relational DBMS, Operating System, Algorithm Design and Analysis and Prototyping interactive systems, Computer Vision

EXPERIENCE

- **StimVeda** — Delhi, India
  Fullstack Developer — *Sept'22 - Present*
  - **Backened**
    * Created many CRUD Apis, Data models and AWS service integrations for the backend server
    * Created Apis and routes for doing CRUD operations **Express Js , Node JS**
    * Created NoSQL databases and data models for handling consumer data **Mongoose, MongoDb**
  - **Frontend**
    * Integerated APIs on the web app(**Vue.JS**) and mobile app **Flutter**
    * implemented state logic for flutter app using **Cubits** and for Web app using **Vue.JS store**
- **Intuit** — Bengaluru, India
  Software Development Intern — *May'22 - July'22*
  - **Role Prediction Service**
    * Used to display suggested Roles based on consumer data
    * Designed pipeline to fetch data from Backend using **Springboot**
    * Made changes in the existing UI on Frontend using **React,Redux**

PROJECTS

- **Feetwings Deployment (Devops , MLops , CI/CD)** — Aug'22-Sep'22
  - Uses **Github Actions** and **Docker** to deploy **AWS Lambda**
  - Uses **AWS SQS(Queue)** to trigger **AWS Lambda**
  - Uses **DynamoDB** to store and retrieve the results
  - Uses **AWS API Gateway** to expose endpoints for **AWS SQS** access
- **Instagram to Twitter bot** (Automation, Backend Development) — July'22-Aug'22
  - Used to post tweets directly as Instagram posts
  - Uses **Twitter api** to fetch tweets and **Instagram , HtmlToImage** libraries of **Node Js**
  - Uses **React,Redux** in frontend to authenticate and display a dashboard
- **News app** (Frontend Development) — January'22
  - Used to display news about various topics
  - Uses **News api** to fetch news and **React Js , BootStrap** to display them
- **Image to Legos Api (Backend Development)** — June'22
  - Used to convert image to base64 lego equivalent
  - Uses **Fast Api** framework to implement API and **CV2** libraries to process the image and apply filters on it

HONORS AND CERTIFICATION

- **3rd Position in Hackanoodle(National level Hackathon by Zomato and Blinkit)** — Nov'22
  - Stood 3rd out of 60 teams from all over India
  - Created Frontend of an e-commerce store in less than 24 hours
- **Intuit Spotlight for Courage** — July'22
  - Completed Intern project at Intuit in 70% of the allotted time
- **Intuit Spotlight for Support** — July'22
  - Helped My team test a new product with creative strategies
- **Responsive Web Development** — April '20
  - Learnt JS, Html and CSS to create Responsive webpages
  - Created Survey page, tribute page, landing page and personal portfolio
  - Completed 300 Hours of coding to get it

EXTRACURRICULAR EXPERIENCE

- **CMO** — Entrepreneurship cell,IIITD
  Chief Marketing and Outreach Officer — *December'19 - July'22*
  - Conducted multiple events engaging **1000+** students
  - **Managed** a team of **10+ students**
  - Raised sponsorships from multiple brands
